

Trauma Cover Target Market Determination (TMD)

5 October 2021

1. Cover to which this TMD applies

ClearView ClearChoice Trauma Cover

ClearView Life Assurance Limited (ABN 12 000 021 581, AFS Licence No. 227682) as the issuer of Trauma Cover under the ClearView ClearChoice Product Disclosure Statement (PDS) is responsible for the TMD for this cover.

2. Description of Target Market

Needs, objectives and financial situation

Trauma Cover is designed for individuals who, in the event of suffering a specified condition require a lump sum, to be paid to them, which can be used as a source of financial security/support for themselves and other persons they choose. A benefit will only be paid if policy terms and conditions are met.

Target market criteria

When cover may be suitable

May be suitable for individuals who:

- meet the cover eligibility criteria
- have financial dependants, significant debt or other financial commitments and expect that they will be unable to meet these commitments in the event they suffer a specified condition
- expect to be able to fund premiums over the life of the insurance contract

When cover may not be suitable

May not be suitable for individuals who:

- do not meet underwriting requirements
- are eligible to make a claim under this cover
- have sufficient cash or liquid assets which are likely to cover their financial commitments
- already hold sufficient levels of Trauma Cover
- are not able to fund premiums over the life of the insurance contract

When a customisable option may be suitable

Trauma plus option	Cover is needed for an extra 12 partial payment Trauma conditions.
Stepped and Level premiums	Stepped premiums There is a preference for a lower up-front cost or there is uncertainty as to how long cover will be held. In addition, there is capacity to meet increasing premiums over time due to age. Level premiums Cover is to be held for a duration such that Level premiums are expected to result in a lower cost than Stepped premiums. The customer should be comfortable with the higher upfront cost particularly in the event of early policy termination.
Linked and Flexi-Linked Cover	There is a need for multiple covers and a preference to use a cost-effective structure or, in the case of flexi-linking, for covers to have different ownership (such as inside and outside super). May not be suitable if the timeframes for cover buy back under the Life Cover Buy Back Benefit do not meet the individuals' needs. <i>If cover is to be held through ClearView ClearChoice Super, you should refer to the ClearView ClearChoice Super TMD which will provide information on the target market criteria for holding cover inside super.</i>

Cover eligibility and underwriting criteria

Product eligibility and underwriting criteria apply to these covers. Refer to the PDS and Adviser Guide.
